Labor Day

Created by the labor movement in the late 19th century and becoming a federal holiday in 1894, Labor Day is observed on the first Monday in September, to pay tribute to the contributions and achievements of American workers.

Symbolizing the unofficial end of summer for many Americans, we celebrate with parties and parades. The Northwest Ohio Labor Day Parade starts at 9 a.m. Monday at Summit and Monroe streets in downtown Toledo. The Northwest Ohio Labor Fest will follow at the Lucas County Fairgrounds in Maumee.

If you do not have a cookout to go to or host, and not attending the parade, support the economy and take advantage of one of the many sales this weekend. Irony - Labor Day is one of the biggest sales weekends, employees work some of their longest hours.

Enjoy your Labor Day no matter how you choose to spend it!

Life in The Burroughs Kids in our Community

One of the greatest resources any neighborhood can have are their kids. Friendships will be formed with neighbors and schoolmates that could last a lifetime. Growing up in a neighborhood leaves special memories in their hearts and minds. Many of them will invest in homes in their own neighborhoods when they grow older.

In a recent article in The Blade's "Letter to the Editor", one of our neighbors wrote that she was wondering why we do not have places for our kids to go to spend time with their friends. Our local pool at Highland Park has been closed, the South Toledo YMCA no longer exists. When the summertime comes upon us, the kids in The Burroughs have no local pools to swim in, no splash pads to cool off in, and no place to go where group activities, with fun, educational relationship building programs are provided.

We actually have a pretty good group of kids here in our neighborhood and it would seem that, collectively, as neighbors, their parents or guardians, and city leaders that we would all want to see a little better opportunity for them. After all, growing up in a neighborhood builds special memories and social and community building skills that can not be obtained any other way.

We all can look back at our childhood and remember the good times we all had as kids. We had a lot of these opportunities when we were growing up. It takes more than one voice to be heard. Programs for kids are important. It is so unfair that our neighborhood has kids who don't receive these services. Its time we all work together to bring these opportunities to our kids. Another summer should not pass that doesn't allow our kids these important life skills and memories.

Kids are one of the greatest resources a neighborhood can have. But more importantly, a neighborhood is one of the greatest resources a kid can have.
