Year Started and Reason for Going into Business:

The Babes and Sucklings Child Care Centers LTD. was established in 1987 to provide quality, loving care for children 2&1/2-12 years of age. We recognize the importance of balanced growth. There are many opportunities for mental, cognitive, physical, social and emotional growth through a variety of creative experiences. Children encouraged to learn and explore at their own speed, in areas that interest them, with unlimited resources and continued education materials that will encourage creative play and enhance their imagination.

Information about the Pre-School Program:

Our Pre-School Program will prepare your child for kindergarten. We provide ASQ assessments, academic and physical programs that will allow your child to comfortably enter kindergarten. Our program shapes and develops young minds through active learning. Their minds are like sponges in the way they view the world. They need a variety of way in how they express themselves.

An important note:

We understand that it is a difficult journey to allow your child to come to a daycare center, especially if they've never attended one before. Our program is licensed by the Department of Job & Family Services. We participate in Step Up to Quality, a voluntary rating system which recognizes childcare programs that exceed quality benchmarks over and above Ohio's licensing standards. We have taken the necessary steps to ensure that our staff is certified with CPR, communicable childhood disease and required certifications, and fingerprinted with background checks for all staff persons. We have a qualified, experienced educational staff.

Message to neighbors:

We are your childcare center that's located right in your neighborhood. If we can be of any service to your children, please feel free to contact us. There will be a discounted price for childcare services if you are located in the BNO area.

BNO Random Acts of Kindness

Entering Fall with Random Acts of Kindness!

What act of Kindness have you experienced?

As you contemplate this question, reflect on your summer, and do not take anything for granted. Any positive deed that crossed your path may have been a part of KINDNESS offered. When we hear stories from our Neighborhood, we like to share!

“I got ‘BOOd’ at work. My coworkers left a small scare for me, in the spirit of Halloween, but it came with a whole jar of candy for me to enjoy! Now I get to pass it on to another one of my coworkers!”

Remember to keep your eyes open for Kindness!
